Claims 1-39 (canceled)

40. (new) A flexible, reclosable package comprising:

(a) first and second panel sections defining an interior;

(b) a zipper closure sealed to each of first and second panel sections along a top edge,
the zipper closure extending from a first side edge to a second side edge and comprising
first and second mating profiles;

(c) a slider device constructed and arranged for mounting on the zipper closure and for
interlocking the first mating profile with the second mating profile when the slider
device is moved in a first direction and disengaging the first mating profile from the
second mating profile when the slider device is moved in a second opposite direction;

the slider device being operably mounted on the zipper closure; and

(d) a first tamper-evident structure disposed at the top edge and encasing a first portion
of the zipper closure, the tamper-evident structure having an opening exposing the slider
device, the opening defined by the tamper-evident structure.

41. (new) The package according to claim 40, wherein:

- (a) the slider device is positioned within the opening of the first tamper-evident structure.

42. (new) The package according to claim 40, further comprising:

- (a) an area of weakness extending along the first tamper-evident structure.

43. (new) The package according to claim 42, wherein:

- (a) the area of weakness is a perforation line.
